

RULES

YOUR BATTING ORDER DETERMINES YOUR FANTASY BASEBALL SCORE

HITTING RULES

1. Your hitters that you selected will perform as a real baseball team going 19 in the batting order.
2. Every 3 outs and all base runners are removed and actions starts again when your next batter comes up to bat in real life (but only according to batting order you set).
3. Players play at different times, so your #1 hitter may have a game that starts at 5:00PM EST. When your #2 hitter does not play until 8:30PM EST. So you won't really know your results until all the action is done.

Example

Lets say your #1 hitter in his first game which is SF@LA at bat gets a base hit. You have a runner on 1st with nobody out. Lets say he steals a base. Then he goes to 2nd base with nobody out. Lets say your #2 hitter who is in SEA@SD strikes out. Then your player stays at 2nd base with one out.
